Communication Challenges & Resolutions

S.No	Challenge Faced	Resolution / Action Taken
1	Uneven story progress across team members early on	Team Lead reassigned and rebalanced story difficulty across all 5 members
2	Confusion around platform-specific submission requirements (GitHub/demo link gating Review status)	Clarified with mentor and documented the correct submission order: build first, then move all stories to Review together
3	Environment issues (wrong Python environment, missing packages)	Standardized on Anaconda Prompt for all setup and dependency installation
